The Core

The AGFJ100 logo is the official logo for the centennial celebration of the Assemblies of God of Fiji. It is more than a centennial mark; it is a symbol of our history and a bold declaration of our future. By blending traditional artistry with modern design, the logo honors the "Yesterday, Today & Forever" theme of our 100-year journey.

Honoring Our Heritage: The Masi Motifs
The characters "AGFJ" are infused with traditional **Fijian Masi motifs**, weaving our cultural identity into the very fabric of our faith. It identifies the Assemblies of God not just as a movement *in* Fiji, but as a movement *of* Fiji.

Stepping Into the Future: Bold Typography
The "100" and the supporting typeface feature a **bold, contemporary font** designed specifically with the **NextGen** in mind. This heavy weight symbolizes the "big steps of faith" required as we transition into the next century. It is a "statement" design, crafted to look just as impactful on a LED stage backdrop as it does on a hoodie or cap, representing a generation that is unapologetic and "commissioned" for the Gospel.

A Legacy in Motion
From the **Covenant Orange** that anchors our sacred promise to the **Eternal Yellow** that radiates our future joy, every element is designed to be lived in. Whether worn as merchandise or displayed in our churches, this logo reminds us that we are positioning AOG Fiji for God’s purpose for the next 100 years.
